of Correction**

Sir:

The Assignee of record of the above patent, E Ink Corporation, by virtue of an Assignment recorded May 7, 2002 at Reel 12668, Frame 102, hereby requests that a Certificate of Correction be issued for the above patent under 35 USC 254 and 37 CFR 1.322.

The Assignee respectfully requests that the correction shown on the enclosed Certificate of Correction Form (Form PTO/SB/44) issue. As explained in more detail in the "Remarks" Section below, the correction is due to a mistake by the Office. Accordingly, it is believed that no fee is payable for this Certificate of Correction. If, however, the Office determines that a fee is payable, please charge this fee to the Assignee's Deposit Account No. 501162.

REMARKS

The amendment set out on the accompanying Form simply deletes an erroneous reference to this application being a division of Application Serial No. 09/141,105, U.S. Patent No. 6,067,105. This error appears to have originated during the

patent printing process. The documents originally filed in connection with this application clearly stated that this application claimed benefit only of Provisional Applications Serial Nos. 60/277,079 and 60/277,391, and the Filing Receipt mailed June 6, 2002 correctly reflected these benefit claims. No subsequent changes to the benefit claims were made. It would appear that during the patent printing process a portion of the "Referenced Applications" Paragraph (see column 1, lines 13-19 of the printed patent) was incorrectly incorporated into the "Related U.S. Application Data" section of the printed patent. Correction of the patent as requested on the attached Form will conform the printed patent to the File Wrapper.

In view of the foregoing, Assignee respectfully submits that the error listed on the accompanying Form PTO/SB/44 is correctable under 35 USC 254 and 37 CFR 1.322. No new matter is added by this amendment, which does not require re-examination or reissue. Accordingly, the Assignee respectfully urges the Commissioner to issue a Certificate of Correction for the above patent reflecting the correction as it appears on the accompanying Form PTO/SB/44.

If there are any questions regarding this matter, the Office is requested to contact the undersigned at the telephone number or E-mail address given below.

Respectfully submitted
